

## The Alexanders Warranty™

4 YEARS WARRANTY

Renault UK Platform Cabs

1 years Equine Roadside Rescue

### What?

is the Alexanders  
Warranty

The Alexanders Warranty is your piece of mind when buying a new Alexanders Horsebox. We offer a 12 month full parts, labour and paint warranty on all our new built bodies\*, to complement the warranties offered on your horsebox chassis. We even include 12 months Equine Roadside Rescue and the option of a courtesy horsebox on request.

### Why?

is it so important to  
you and your vehicle

When travelling horses there is already enough to think about so having a comprehensive warranty is one less worry. On top of the Alexanders Warranty the Renault and Fiat Warranties, both including Roadside Assistance, ensure that you are not just kept on the road without any nasty financial shocks but that your horsebox is cared for in a way that protects its future value.

### How?

will the warranty give  
you re-assurance

The Alexanders Warranty on your horsebox body is 'back to base' covering all parts and labour. It also includes 12 months of Equine Roadside Rescue to ensure that if your vehicle has to be towed, your horses won't be left stranded. The Renault Platform Cab warranty\* offers 4 years Driveline protection (with unlimited miles in the first 2 years) as well as 4 years 24/7 roadside assistance (inc European cover for 3 years). Fiat offer similar protection over a 3 year period so whatever you choose there is always someone to look after you.

\*Terms and Conditions apply

\*applies to specific models in the range
